

ALENZA **Settle**

Sinking Agent

PRINCIPLE FUNCTIONING AGENTS:

Polyacrylamide (Polyvinyl Polymer) and other ingredients 100%

ALENZA SETTLE is exempt from tolerance requirements under Title 40, code of Federal Regulations 180.

CAUTION: KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS: May cause irritation to skin and eyes. If in contact, flush immediately with plenty of water. See a doctor if irritation persists. Follow appropriate precautions on label of pesticide used.

GENERAL INFORMATION

ALENZA Settle is a nonionic polyacrylamide-based sinking agent. In aquatic applications, **ALENZA Settle** increases viscosity and elasticity of pesticide solutions, which improves sinking, contact and sticking of pesticides to aquatic plant surfaces. **ALENZA Settle** is compatible with glyphosate products and most water-soluble pesticides.

FIRST AID

Call a poison control center or doctor immediately for treatment advice.

If Swallowed: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye. Have the product container with you when calling a poison control center or doctor, or going for treatment.

DOSAGE RECOMMENDATIONS

Dosage recommendations are given in a general range. The specific dosage should be determined based on your environmental and other physical conditions. Always test the particular conditions and increase the dosage of **ALENZA Settle** until the desired action is obtained.

Aquatic injection (for sinking and confinement of pesticide)

Quiescent streams or lakes: *1 gallon or less*

Average aquatic agitation: *1 to 2 gallons*

Flowing streams, canals, irrigation drainage ditches, where water temperature is high and water movement is rapid: *3 to 5 gallons*

MIXING

Step 1. Select correct dosage from chart.

Step 2. Fill mix tank with water, pesticide and other additives and begin to agitate (never add water to the **ALENZA Settle** container).

Step 3. Shake bottle well before using.

Step 4. For best mixing results, either (1) inject **ALENZA Settle** liquid into the suction side of the feeder or recirculating pump to obtain adequate dispersion of the polymer throughout the pesticide solution, or (2) slowly add **ALENZA Settle** liquid to the rapidly agitating tank mix in the area of highest turbulence by pouring a very thin stream.

Step 5. Continue to agitate mix tank for at least 2 minutes before spraying.

Step 6. Follow all cleanup precautions on label of pesticide used. Follow governmental procedures for disposal of pesticide spray solution.

HANDLING AND DISPOSAL

ALENZA Settle becomes extremely slippery when spilled. Use a dry absorbent material on spills, then scrub with a detergent and flush with water. Triple rinse. Then offer container for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. If incineration is allowed, stay out of smoke.

ALENZA warrants that this product, when used as directed and in accordance with sound agricultural practices, is reasonably fit for the purposes stated on the label. Buyer assumes the risk of any use contrary to the directions so stated. ALENZA will not be liable for indirect or consequential damages. ALENZA makes no other expressed or implied warranty of Fitness or Merchantability. This warranty shall not be changed by oral or written agreement unless signed by a duly authorized officer of ALENZA. In no event shall ALENZA's liability for any breach of warranty exceed the purchase price of the product to which a claim is made.
