

Safety Data Sheet

Report Date 11-Mar-15

Page 1 of 4

1. Identification

Product Name : HEL-FIRE
Synonyms : None
Product Use : Herbicide Activator
Manufacturer/Supplier : Helena Chemical Company
Address : 225 Schilling Blvd. Collierville, TN 38017
General Information : 901-761-0050
Transportation Emergency Number : CHEMTREC:800-424-9300

2. Hazard Identification

Signal Word : Danger
Skin Irritation : Severe irritation; will cause irritation and burns.
Eye Irritation : Strong irritation; burning of the eyes.
Acute Toxicity Oral : Not determined
Acute Toxicity Dermal : Not determined

Hazard Categories : Oral/Dermal Toxicity - 4/4; Skin and Eye Corrosion/Irritation - 1A/1; Inhalation Toxicity - 5

Hazard Statement : Causes severe skin burns and eye damage
Harmful in contact with skin
Harmful if swallowed
May be harmful if inhaled

3. Composition / Information on Ingredients

Component	CAS Number	Weight %
Aminated phosphoric and carboxylic acids, sulphurated amides, and spray deposition aids.	Proprietary	90.00
Constituents ineffective as adjuvants	Nonhazardous	10.00

4. First Aid Measures

Eye : Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice.

Skin : Remove contaminated clothing. Rinse skin immediately with plenty of water, continuing for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation : Move person to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

Ingestion : Do not induce vomiting. If fully conscious, rinse mouth with water. Never give anything by mouth to someone who is unconscious or having convulsions. Apply artificial respiration if necessary. Call a doctor or poison control center immediately.

Indication of Immediate Medical Attention and Special Treatment Needed : Aspiration of small amounts during ingestion or vomiting may cause severe burns and severe pulmonary injury to the lungs. Aspiration may also cause chemical pneumonitis, which can be fatal.

Safety Data Sheet

Report Date 11-Mar-15

Page 2 of 4

5. Fire Fighting Measures

- Extinguishing Media** : Use water spray in the form of a fog, dry chemical, foam or carbon dioxide extinguishing agents.
- Specific Hazards Arising from the Chemical** : May produce oxides of carbon, nitrogen and toxic phosphorous compounds under fire conditions.
- Special Fire Fight Proc** : Avoid excessive water. Wear self-contained breathing apparatus and full protective clothing. Treat as a liquid chemical type fire where discharges to the environment are to be controlled as quickly as possible.

6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area. Wash thoroughly after handling. Do not get in eyes. Avoid contact with skin and clothing.
- Protective Equipment** : Splashproof goggles or face shield, chemical-resistant gloves, long pants and long-sleeved shirt, enclosed boots, impervious apron. Eyewash station and emergency shower should be available nearby. Use NIOSH-approved respirator if ventilation is inadequate.
- Emergency Procedures Methods and Materials for Containment and Cleanup** : Contain all spills, keeping material out of sewers and drains by diking.
: For small spills, collect free liquids and place in suitable container for disposal. Absorb remaining liquid with an inert material, such as clay or vermiculite. Sweep up carefully and place in suitable disposal container. Rinse spill area with water, collect and place in containers with material for disposal.

7. Handling and Storage

- Precautions for Safe Handling** : Do not contaminate water, food or feed by storage and handling. Do not contaminate water sources by run off from cleaning or equipment, disposal of equipment washwater or spray waste.
- Conditions for Safe Storage** : Store in original container only. Keep container tightly closed. Do not allow water to be introduced into the contents of the container. Do not store near heat or open flames. Do not store with oxidizing agents.

8. Exposure Controls / Personal Protection

- TLV/PEL** : Not established for this mixture. TLV for acids is 1 mg/m³.
- Appropriate Engineering Controls** : Ensure adequate ventilation to maintain airborne concentrations below the TLV.
- Personal Protective Equipment** : Splashproof goggles or face shield, chemical-resistant gloves, long pants and long-sleeved shirt, enclosed boots, impervious apron. Eyewash station and emergency shower should be available nearby.

9. Physical and Chemical Properties

- Odor/Appearance** : Clear golden yellow liquid; slight fatty odor.
- Flash Point, °F** : >200 Degrees F.
- Boiling Point, °F** : Not determined
- Melting Point(Freezing point), °C** : Not determined
- Vapor Pressure, mm Hg @ 20 °C** : Not determined
- Vapor Density** : Not determined
- Solubility in Water** : Soluble
- Molecular Formula** : Not applicable, formulated mixture.
- Density, g/mL @ 25 °C** : 1.190-1.230
- Evaporation Rate(Butyl Acetate = 1)** : Not available

Safety Data Sheet

Report Date 11-Mar-15

Page 3 of 4

Octanol/Water Partition Coefficient : No information found
pH : 1.8-2.3 (0.25%); 2.5-3.5 (0.5%)
Flammable Limits (approximate volume % in air) : Not determined
Auto-ignition Temperature : Not applicable
Decomposition temperature : No information found

10. Stability and Reactivity

Reactivity : Hydrogen gas released in reaction with metals.
Chemical Stability : Stable
Hazardous Decomposition Products : Thermal decomposition in the presence of air produces products including carbon dioxide, carbon monoxide, oxides of nitrogen, phosphorus and sulfur.
Hazardous Polymerization Conditions to Avoid : Will not occur
: Avoid bases, strong oxidizing and reducing agents. Avoid contact with many metals including aluminum.
Incompatible Materials : Avoid bases, strong oxidizing and reducing agents. Avoid contact with many metals, including aluminum.

11. Toxicological Information

Acute Toxicity (Oral LD50) : Not determined
Acute Toxicity (Dermal LD50) : Not determined
Acute Toxicity Inhalation LC50 : Not determined
Likely Routes of Exposure : Skin, eyes, inhalation
Skin Irritation : Severe irritation; will cause irritation and burns to skin.
Eye Irritation : Strong irritation; will cause burning to eyes.
Skin Sensitization : May aggravate existing skin disease.
Carcinogenic : None currently known.
Chronic Effects : Chronic effects due to severe burning/irritation to skin and eyes.
Other Hazards : CA PROP 65: This product contains the following chemicals known to the state of CA to cause cancer, birth defects and reproductive harm - Dioxane (trace amounts); Ethylene Oxide (trace amounts).

12. Ecological Information

Ecotoxicity : No information found
Persistence and Degradability : No information found
Bioaccumulative Potential : No information found
Mobility in Soil : No information found
Other Adverse Effects : No information found

13. Disposal Considerations

Waste Disposal Method : This material must be disposed of according to Federal, State or Local procedures under the Resource Conservation and Recovery Act.

14. Transport Information

Safety Data Sheet

Report Date 11-Mar-15

Page 4 of 4

UN Proper Shipping Name : Not regulated domestically (highway) if shipped or packaged in containers such as stainless steel or plastic (49 CFR 173.154(d)). Regulated by air (IATA) and vessel (IMDG) as Corrosive Liquid, n.o.s. (contains Monocarbamide dihydrogen sulphate)

Transport Hazard Class : Corrosive (8) - IATA/IMDG

UN Identification Number : UN1760 - IATA/IMDG

Packaging Group : PG III - IATA/IMDG

Environmental Hazards : No information found

Transport in Bulk : No information found

Special Precautions for Transportation : Non-regulated by US ground per 49 CFR 173.154(d).

Freight Classification : Fertilizing Compound, (Manufactured Fertilizer), Liquid, NOIBN (NMFC Item 68140, Sub 6, Class 70)

15. Regulatory Information

National Fire Protection Association Rating :

Health: 2 Fire: 0 Reactivity: 2
Rating Level: (4-Extreme, 3-High, 2-Moderate, 1-Slight, 0-Minimum)

S.A.R.A Title III Hazard Classification (Yes/No) :

Immediate (Acute) Health: Y
Delayed (Chronic) Health: Y
Sudden Release of Pressure: N
Fire: N
Reactive: Y

16. Other Information

Data of Preparation/Revision : 11-March-2015
