GENERAL INFORMATION

- For the repair of damaged turf (such as divot repair, pet damage, traffic wear, insect or disease damage, and/or drought stress).
- For pre-planting, over-seeding and establishment of sod or recently seeded turf.
- For turf maintenance.

PERFECTION® REVIVE! is specially formulated for cemeteries, lawn care professionals, parks departments, golf courses, and athletic fields that desire a strong turf with slow growth and lower labor requirements. This unique blend provides four nutrients (nitrogen, phosphorus, potassium, and sulfur) derived from seven sources, including 65% controlled release nitrogen from Duration® CR and Nutralene®. Iron is eliminated from all sources to reduce potential for staining or etching markers and monuments, sidewalks, and curbs.

REVIVE! will provide added turf strength, color, and vigor along with improved bacterial activity and consistent steady nitrogen response.

DIRECTIONS FOR USE

Apply the amount of fertilizer prescribed evenly and uniformly. Irrigate the treated area following application. Generally, the prescribed application will be at the medium rate. Special conditions or situations might dictate the high or low rate. Applicator judgment and experience should be used with this and all other fertilizer products. Please call your local Wilbur-Ellis representative with any questions regarding special situations or conditions pertaining to application rates.

DIRECTIONS FOR USE (cont.)

CAUTION: Plant nutrients can cause staining. Even though this product contains no iron, it should be swept off concrete immediately after application and prior to rain or irrigation.
