

Report 14-Apr-15 Date

Page 1 of 4

## 1. Identification

**Product Name** SILWET L-77

Svnonvms :: None

Product Use 4 Organosilicone Surfactant Manufacturer/Supplier : Helena Chemical Company

Address 3 225 Schilling Blvd. Collierville, TN 38017

General Information \$901-761-0050

**Transportation Emergency Number** : CHEMTREC:800-424-9300

#### Hazard Identification

Signal Word: Warning

Skin Irritation: No irritation on 5 of 6 at 7 days; desquamation on 1/6 at 14 days. Eye Irritation : 21 days-minor corneal injury in 1 of 6; minor conjunctival redness in 2 of

Acute Toxicity Oral : LD50 (rat) 2,330 mg/kg (combined male/female rate) Acute Toxicity Dermal : LD50 (rabbit) 2,640 mg/kg (combined male/female rate)

Hazard Categories: Oral/Dermal/Inhalation Toxicity - 5/5/5; Eye Irritation - 2A; Skin Irritation -

Hazard Statement : May be harmful if swallowed

May be harmful in contact with skin Causes serious eye irritation Causes mild skin irritation May be harmful if inhaled

## Composition / Information on Ingredients

Component

Polyalkyleneoxide modified heptamethyltrisiloxane, allyloxypolyethyleneglycol methyl ether. **CAS Number** 

Proprietary

Weight % 100.00

#### **First Aid Measures**

Eye : Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.

Remove contact lenses, if present, after first 5 minutes, then continue rinsing

eye. Call a poison control center or doctor for treatment advice.

Skin Take off contaminated clothing. Rinse skin immediately with plenty of water for

15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Inhalation: Move person to fresh air. If person is not breathing, call 911 or an ambulance,

then give artificial respiration, preferably mouth-to-mouth, if possible. Call a

poison center or doctor for further treatment advice.

Ingestion : Call a poison control center or doctor immediately for treatment advice. Have

person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth if

unconscious.

Indication of Immediate Medical : Treat symptomatically. **Attention and Special Treatment** 

Needed

Report 14-Apr-15

Page 2 of 4

## 5. Fire Fighting Measures

Extinguishing Media: Use alcohol-type or universal-type foam for large fires. Use carbon dioxide or

dry chemical extinguishing agents for small fires.

Specific Hazards Arising from the : Do not spray a solid stream of water or foam directly into a pool of hot, burning

Chemical liquid. This may cause frothing and increase fire intensity.

Special Fire Fight Proc : Wear self-contained breathing apparatus and full protective clothing.

## 6. Accidental Release Measures

Personal Precautions : Keep unprotected and unnecessary personnel out of spill area.

Protective Equipment : Splashproof goggles or faceshield, impervious gloves, impervious apron and

footwear. Eyewash and emergency shower should be available in work area.

Respiratory protection not normally needed.

Emergency Procedures : Spill area will be quite slippery. Dike spill area to prevent spreading. Spill may be

reportable under the Clean Water Act.

Methods and Materials for 📑 Use an oil absorbent material, such as clay, sand or sawdust. Collect and place

Containment and Cleanup in suitable containers for proper disposal.

#### 7. Handling and Storage

Precautions for Safe Handling: Keep out of reach of children. Keep container tightly closed. Do not allow water

to be introduced into the contents of this container.

Conditions for Safe Storage : Store in original container only. Do not store near heat or open flame. Do not

store with oxidizing agents.

## 8. Exposure Controls / Personal Protection

TLV/PEL & Not available for mixture

Appropriate Engineering Controls : General (mechanical) room ventilation is expected to be satisfactory.

Personal Protective Equipment : Splashproof goggles or faceshield, impervious gloves, impervious apron and

footwear. Eyewash and emergency shower should be available in work area.

Respiratory protection not normally needed.

#### 9. Physical and Chemical Properties

Odor/Appearance R Clear, colorless liquid with polyether odor.

Flash Point, °F : 241 Degrees F.

Boiling Point, °F : >302 Degrees F.

Melting Point(Freezing point), °C : 30 Degrees F.

Vapor Pressure, mm Hg @ 20 °C : <1 mmHg

Vapor Density 3 >1

Solubility in Water : Dispersible

Molecular Formula : Not applicable, formulated mixture.

Density, g/mL @ 25 °C : 1.005-1.015

Evaporation Rate(Butyl Acetate = 3 <1

41

Octanol/Water Partition : No information found

Coefficient

pH : Not applicable, no water content.

Flammable Limits (approximate 3 No information found

volume % in air)

Auto-ignition Temperature : Not determined

Report 14-Apr-15

Page 3 of 4

**Decomposition temperature**: No information found

## 10. Stability and Reactivity

Reactivity : No information found

Chemical Stability: Stable

Hazardous Decomposition : Burning can produce carbon oxides, oxides of silicon, formaldehyde.

Products

Hazardous Polymerization ; Will not occur Conditions to Avoid : None known Incompatible Materials : None known

#### 11. Toxicological Information

Acute Toxicity (Oral LD50) : 2,330 mg/kg (rat) combined male/female rate. May be harmful if swallowed.

Acute Toxicity (Dermal LD50) : 2,640 mg/kg combined male/female rate. May be harmful in contact with skin.

Acute Toxicity Inhalation LC50 : Substantially saturated vapor: no deaths in 6 hours, 5 male, 5 female. May be

Substantially saturated vapor: no deaths in 6 hours, 5 male, 5 female. May be harmful if inhaled.

Likely Routes of Exposure : Eyes, skin, inhalation

Skin Irritation : No irritation on 5 of 6 at 7 days; desquamation on 1/6 at 14 days. Causes mild

skin irritation.

**Eye Irritation** : 21 days-minor corneal injury in 1 of 6; minor conjunctival redness in 2 of 6.

Causes serious eye irritation.

Skin Sensitization : Did not cause sensitization on laboratory animals (guinea pig).

Carcinogenic : Not listed by IARC, NTP or OSHA.

Chronic Effects 1 No information found

Other Hazards : Findings from a 14-day dietary feeding study with rats show that high dosage

repeated ingestion causes reversible adverse effects on the male and female

reproductive tracts.

#### 12. Ecological Information

Ecotoxicity: No information found
Persistence and Degradability: No information found
Bioaccumulative Potential: No information found
Mobility in Soil: No information found

Other Adverse Effects : None currently known

## 13. Disposal Considerations

Waste Disposal Method : This material must be disposed of according to Federal, State or Local

procedure under the Resource Conservation and Recovery Act.

#### 14. Transport Information

**UN Proper Shipping Name** : Not regulated by DOT, IATA or IMDG.

Transport Hazard Class : None
UN Identification Number : None
Packaging Group : None

Environmental Hazards : No information found Transport in Bulk : No information found

Report 14-Apr-15 Date
