

MANAGEMENT POLICY

DBi Services is committed to meeting our transportation asset maintenance contractual obligations to our customers, to preventing pollution and ensuring the safety of the public and our employees.

To achieve these goals, we will continually operate, maintain and improve our systems through responsible investments in people, processes, and equipment. Exceptional environmental and safety performance and continual improvement is who we are and what we do. The policies and procedures in our systems provide direction and structure; and meet the requirements of ISO 9001 and ISO 14001, applicable legal requirements and our other requirements.

We will measure our performance to ensure that we will continually improve.

President and CEO
