Homecomings Yoshikuni Igarashi 2016-09-06 Soon after the end of World War II, a majority of the nearly 7 million Japanese civilians and servicemen who had been posted overseas returned home. Heeding the call to rebuild, these veterans helped remake Japan and enjoyed popularized accounts of their service. For those who took longer to be repatriated, such as the POWs detained in labor camps in Siberia and the fighters who spent years hiding in the jungles of islands in the South Pacific, returning home was more difficult. Their nation had moved on without them and resented the reminder of a humiliating, traumatizing defeat. Homecomings tells the story of these late-returning Japanese soldiers and their struggle to adapt to a newly peaceful and prosperous society. Some were more successful than others, but they all charted a common cultural terrain, one profoundly shaped by media representations of the earlier returnees. Japan had come to redefine its nationhood through these popular images. Yoshikuni Igarashi explores what Japanese society accepted and rejected, complicating the definition of a postwar consensus and prolonging the experience of war for both Japanese soldiers and the nation. He throws the postwar narrative of Japan's recovery into question, exposing the deeper, subtler damage done to a country that only belatedly faced the implications of its loss.

Memory and Genocide Fazil Moradi 2017-04-07 This book focuses on the ethical, aesthetic, and scholarly dimensions of how genocide-related works of art, documentary films, poetry and performance, museums and monuments, music, dance, image, law, memory narratives, spiritual bonds, and ruins are translated and take place as translations of acts of genocide. It shows how genocide-related modes of representation are acts of translation which displace and produce memory and acts of remembrance of genocidal violence as inheritance of the past in a future present. Thus, the possibility of representation is examined in light of what remains in the aftermath where the past and the future are inseparable companions and we find the idea of the untranslatability in acts of genocide. By opening up both the past and lived experiences of genocidal violence as and through multiple acts of translation, this volume marks a heterogeneous turn towards the future, and one which will be of interest to all scholars and students of memory and genocide studies, transitional justice, sociology, psychology, and social anthropology.

Law and Literature Kieran Dolin 2018-01-25 Law and Literature presents an authoritative, fresh and accessible new overview of the many ways in which law and literature interact. Written by a team of international experts, it provides a multi-focused history of literary studies' critical interest in ideas of law and justice. It examines the effects of law on writers and their work, ranging from classical tragedy to comics, and from East Africa to Elizabethan England. Over twenty chapters, contributors reveal the intricate and multivalent historical interactions between law and literature, both past and present, and trace the intellectual genesis of the concept of law in literary studies, focusing on major developments in the history of the interdisciplinary project of law and literature, as well as the changing ideas of law, and the cultural contests in which it has figured. Law and Literature will appeal to graduates and scholars working on the intersection between law and literature and in key related areas such as literature and human rights.

Picturing Identity Hertha D. Sweet Wong 2018-05-02 In this book, Hertha D. Sweet Wong examines the intersection of writing and visual art in the autobiographical work of twentieth- and twenty-first-century American writers and artists who employ a mix of written and visual forms of self-narration. Combining approaches from autobiography studies and visual studies, Wong argues that, in grappling with the breakdown of stable definitions of identity and unmediated representation, these writers-artists experiment with hybrid autobiography in image and text to break free of inherited visual-verbal regimes and revise painful histories. These works provide an interart focus for examining the possibilities of self-representation and self-narration, the boundaries of life writing, and the relationship between image and text. Wong considers eight writers-artists, including comic-book author Art Spiegelman; Faith Ringgold, known for her story quilts; and celebrated Indigenous writer Leslie Marmon Silko. Wong shows how her subjects formulate webs of intersubjectivity shaped by historical trauma, geography, race, and gender as they envision new possibilities of selfhood and fresh modes of self-narration in word and image.

Jack Cole and Plastic Man Art Spiegelman 2001-08 For years Jack Cole labored dutifully as a cartoonist, comic book illustrator, and Playboy's premier artist. He was, on the outside, a mild-mannered and easygoing guy. One look at his most famous creation--the manic, surreal Plastic Man--and there is no question that much more lurked in the mind of the artist than anyone suspected. Pulitzer Prize-winning writer and cartoonist Art Spiegelman and renowned graphic artist Chip Kidd pay homage to Plastic Man and his creator, Jack Cole.

From Text to Epitext: Expanding Students' Comprehension, Engagement, and Media Literacy Shelbie Witte 2021-03-31 This volume explains how analyzing textual elements that aren't part of the text but connected to it can be used with K–16 students to improve comprehension, engagement, critical thinking, and media literacy. Beginning with an introduction that briefly explains Genette's theory of paratext and discusses the functions of epitext theory, this book comprises theory-to-practice chapters that showcase ways in which teachers and librarians can use elements independent of a text to discuss texts and media with students. Chapters include a practitioner's section specifying practical approaches and explanations for how to use epitext. Scaffolding an application of theory to practice, this title provides educators with an original approach to increasing literacy engagement and integration as well as for increasing media literacy and critical thinking. It includes practical ideas for using epitext in the classroom to promote critical thinking and for collaboration between teachers and librarians. It also includes editorial sidebars that provide additional "how-to" ideas, support deep thinking, make connections to relevant content in other chapters, and provide examples for students in K–16 classrooms. Explains how epitext can be used to scaffold understanding by providing summaries of content, interpretations, criticisms, and appreciations others share about the work Demonstrates the creative process by following the trail of the production of a work Helps students to explore and use various media to complement and extend their experience of a work

The use and representation of Yiddish in "Maus" by Art Spiegelman Christoph Kohls 2017-02-03 Seminar paper from the year 2015 in the subject American Studies - Literature, grade: 2.3, Ruhr-University of Bochum (Historisches Institut), course: YIDDISCHKEIT: THE LITERARY AND POPULAR CULTURES OF YIDDISH SPEAKING JEWS, 1750-2000, language: English, abstract: In the 1930s, about 5,2 million Jews were able to speak Yiddish in Eastern Europe, but after the Second World War almost five million of them were dead. This led to a declining importance and use of the Yiddish language. But it is not a dead language but a language that gained interest of the descendants of the former yiddish-speaking Jews and research at the universities and gets more and more known. Furthermore, there are still speakers of Yiddish, mostly in the ultra-orthodox milieu in Israel. To show that Yiddish is still used, I will examine the graphic novel "Maus" by the American author Art Spiegelman whose parents immigrated to the USA in the early 1950s. It deals with the story of his Jewish father in Poland during the Second World War. This paper shall deal with the use of Yiddish and Yinglish and its representation in the graphic novel. The aim of this paper is to show that traces of Yiddish can be found even in a graphic novel. Following that aim, chapter I.A deals with the immigration of Jews to the USA and the impact that the big Jewish community in America had on the American language – the influence of Yiddish on English and the other way round. The second chapter (II.) focuses on the life of Jews in Poland and their use of Yiddish. The chapter shall give an overview of the social premises, the Jews lived in. Nevertheless it shall also give a short introduction of the Yiddish language and how it was used. As the graphic novel deals with the Holocaust, the third chapter (III.) sums up the events after the invasion of the German Reich to Poland and shows what the Germans did to Poland. Furthermore the important Polish places for the graphic novel are introduced. The next chapter introduces Art Spiegelman and gives a short biography of him. Furthermore his work "Maus" will be represented and a short summary of the graphic novel focusing on the storyline in the 1930s and 1940s will be given. Chapter V. now analyzes the use and representation of Yiddish and in the last Chapter a conclusion will be drawn towards the question, how Yiddish is represented in "Maus".

Beyond Postmodernism Christopher K. Brooks 2014-07-03 Beyond Postmodernism: Onto the Postcontemporary is a collection designed to provide the reader with an alternative to viewing the world through the lens of Postmodernism. Contributors to this collection utilize and define such critical tools as transhumanism, post-post theory, posthumanism, and postcontemporary theory. Other essays focus on interpreting texts or genres, yielding impressive conclusions that were "beyond" the scope of postmodern discourse. Eclectic in nature, while examining works as diverse as Julia Ward Howe's *The Hermaphrodite* and Salman Rushdie's *Satanic Verses*, yet unified in a commonsensical statement that postmodernism has perhaps ruled too long in critical discussions, this collection is also designed to attract those seeking or awaiting something new in critical methodology to consider joining in the postcontemporary dialogue.

Carnet de Voyage 2004 Craig Thompson - the award-winning creator of *Blankets* and *Good-Bye, Chunky Rice* - spent three months travelling through Barcelona, the Alps, and France, as well as Morocco, where he was researching his next graphic novel, *Habibi*. Spontaneous sketches and a travelogue diary document his adventures and quiet moments, creating a raw and intimate portrait of countries, culture and the wandering artist.

Doing Democracy Nancy S. Love 2013-12-01 Demonstrates how activists and others use art and popular culture to strive for a more democratic future. *Doing Democracy* examines the potential of the arts and popular culture to extend and deepen the experience of democracy. Its contributors address the use of photography, cartooning, memorials, monuments, poetry, literature, music, theater, festivals, and parades to open political spaces, awaken critical consciousness, engage marginalized groups in political activism, and create new, more democratic societies. This volume demonstrates how ordinary people use the creative and visionary capacity of the arts and popular culture to shape alternative futures. It is unique in its insistence that democratic theorists and activists should acknowledge and employ affective as well as rational faculties in the ongoing struggle for democracy. "Nancy S. Love and Mark Mattern have collected a first-rate set of studies that illuminate the intersection between art and politics in the contemporary era. The text demonstrates how activist art and cultural politics can promote democratic politics and how democracy is enriched and enlivened by activist art projects. This book should interest everyone concerned with the fate of art and democracy in the contemporary era and how they can help nourish each other." — Douglas Kellner, author of *Media Spectacle* and *Insurrection*, 2011: From the Arab Uprisings to Occupy Everywhere

A Philosophy of Autobiography Aakash Singh Rathore 2018-10-09 This book offers intimate readings of a diverse range of global autobiographical literature with an emphasis on the (re)presentation of the physical body. The twelve texts discussed here include philosophical autobiography (Nietzsche), autobiographies of self-experimentation (Gandhi, Mishima, Warhol), literary autobiography (Hemingway, Das) as well as other genres of autobiography, including the graphic novel (Spiegelman, Satrapi), as also documentations of tragedy and injustice and subsequent spiritual overcoming (Ambedkar, Pawar, Angelou, Wiesel). In exploring different literary forms and orientations of the autobiographies, the work remains constantly attuned to the physical body, a focus generally absent

from literary criticism and philosophy or study of leading historical personages, with the exception of patches within phenomenological philosophy and feminism. The book delves into how the authors treated here deal with the flesh through their autobiographical writing and in what way they embody the essential relationship between flesh, spirit and word. It analyses some seminal texts such as *Ecce Homo*, *The Story of My Experiments with Truth*, *Waiting for a Visa*, *I Know Why the Caged Bird Sings*, *A Moveable Feast*, *Night*, *Baluta*, *My Story*, *Sun and Steel*, *The Philosophy of Andy Warhol*, *MAUS* and *Persepolis*. Lucid, bold and authoritative, this book will be of great interest to scholars and researchers of philosophy, literature, gender studies, political philosophy, media and popular culture, social exclusion, and race and discrimination studies.

Transmedial Narratology and Contemporary Media Culture Jan-Noël Thon 2016-08 Narratives are everywhere—and since a significant part of contemporary media culture is defined by narrative forms, media studies need a genuinely transmedial narratology. Against this background, *Transmedial Narratology and Contemporary Media Culture* focuses on the intersubjective construction of storyworlds as well as on prototypical forms of narratorial and subjective representation. It provides not only a method for the analysis of salient transmedial strategies of narrative representation in contemporary films, comics, and video games but also a theoretical frame within which medium-specific approaches from literary and film narratology, from comics studies and game studies, and from various other strands of media and cultural studies may be applied to further our understanding of narratives across media.

The Greatest Comic Book of All Time Bart Beaty 2016-04-27 Bart Beaty and Benjamin Woo work to historicize why it is that certain works or creators have come to define the notion of a "quality comic book," while other works and creators have been left at the fringes of critical analysis.

The Value of Drawing Instruction in the Visual Arts and Across Curricula Seymour Simmons III 2021-03-29 By applying philosophical and historical perspectives to drawing instruction, this volume demonstrates how diverse teaching methods contribute to cognitive and holistic development applicable within and beyond the visual arts. Offering a new perspective on the art and science of drawing, this text reveals the often-unrecognized benefits that drawing can have on the human mind, and thus argues for the importance of drawing instruction despite, and even due to contemporary digitalization. Given the predominance of visual information and digital media, visual thinking in and through drawing may be an essential skill for the future. As such, the book counters recent declines in drawing instruction to propose five Paradigms for teaching drawing – as design, as seeing, as experience and experiment, as expression, and as a visual language – with exemplary curricula for pre-K12 art and general education, pre-professional programs across the visual arts, and continuing education. With the aid of instructional examples, this volume dispels the misconception of drawing as a talent reserved for the artistically gifted and posits it as a teachable skill that can be learned by all. This text will be of primary interest to researchers, scholars, and doctoral students with interests in drawing theory and practice, cognition in the arts, positive psychology, creativity theory, as well as the philosophy and history of arts education. Aligning with contemporary trends such as Design Thinking, STEAM, and Graphicacy, the text will also have appeal to visual arts educators at all levels, and other educators involved in arts integration.

Jew Cynthia M. Baker 2017-01-13 *Jew*. The word possesses an uncanny power to provoke and unsettle. For millennia, *Jew* has signified the consummate Other, a persistent fly in the ointment of Western civilization's grand narratives and cultural projects. Only very recently, however, has *Jew* been reclaimed as a term of self-identification and pride. With these insights as a point of departure, this book offers a wide-ranging exploration of the key word *Jew*—a term that lies not only at the heart of Jewish experience, but indeed at the core of Western civilization. Examining scholarly debates about the origins and early meanings of *Jew*, Cynthia M. Baker interrogates categories like "ethnicity," "race," and "religion" that inevitably feature in attempts to define the word. Tracing the term's evolution, she also illuminates its many contradictions, revealing how *Jew* has served as a marker of materialism and intellectualism, socialism and capitalism, worldly cosmopolitanism and clannish parochialism, chosen status, and accursed stigma. Baker proceeds to explore the complex challenges that attend the modern appropriation of *Jew* as a term of self-identification, with forays into

Yiddish language and culture, as well as meditations on Jew-as-identity by contemporary public intellectuals. Finally, by tracing the phrase new Jews through a range of contexts—including the early Zionist movement, current debates about Muslim immigration to Europe, and recent sociological studies in the United States—the book provides a glimpse of what the word Jew is coming to mean in an era of Internet cultures, genetic sequencing, precarious nationalisms, and proliferating identities.

Red Rock Baby Candy Shira Spector 2021-03-23 Shira Spector, whose drawing is visceral, symbolic and naturalistic, literally paints a vivid portrait of the most eventful 10 years of her life, encompassing her tenacious struggle to get pregnant, the emotional turmoil of her father's cancer diagnosis and eventual death, and her recollections of past relationships with her parents and her partner. Set in a kaleidoscope of Montreal and Toronto, *Red Rock Baby Candy* begins in subtle, tonal shades of black ink and introduces color slowly over the next 50 pages until it explodes into a glorious full color palette. The visual storytelling eschews traditional comics panels in favor of a series of unique page compositions that convey both a stream of consciousness and the tactile reality of life, both the subjective impressions of the author at each moment of the life she depicts and the objective series of events that shape her narrative.

Breakdowns Art Spiegelman 2008 The author reflects on the comics form and its influence on his life and art as he traces his evolution from comics-obsessed boy to a neurotic adult exploring the effects of his parents' memories of Auschwitz on his own son.

The Subject of Holocaust Fiction Emily Miller Budick 2015-05-20 Fictional representations of horrific events run the risk of undercutting efforts to verify historical knowledge and may heighten our ability to respond intellectually and ethically to human experiences of devastation. In this captivating study of the epistemological, psychological, and ethical issues underlying Holocaust fiction, Emily Miller Budick examines the subjective experiences of fantasy, projection, and repression manifested in Holocaust fiction and in the reader's encounter with it. Considering works by Cynthia Ozick, Art Spiegelman, Aharon Appelfeld, Michael Chabon, and others, Budick investigates how the reading subject makes sense of these fictionalized presentations of memory and trauma, victims and victimizers.

????? Craig Thompson 2011 A graphic tale by the author of *Blankets* follows the relationship between two refugee child slaves who are thrown together by circumstance and who struggle to make a place for themselves in a world fueled by fear and vice, in a visual parable that touches on themes of cultural divisions and the shared heritage of Christianity and Islam.

Bandits, Misfits, and Superheroes Josef Benson 2022-03-15 American comics from the start have reflected the white supremacist culture out of which they arose. Superheroes and comic books in general are products of whiteness, and both signal and hide its presence. Even when comics creators and publishers sought to advance an antiracist agenda, their attempts were often undermined by a lack of awareness of their own whiteness and the ideological baggage that goes along with it. Even the most celebrated figures of the industry, such as Jerry Siegel and Joe Shuster, Jack Jackson, William Gaines, Stan Lee, Robert Crumb, Will Eisner, and Frank Miller, have not been able to distance themselves from the problematic racism embedded in their narratives despite their intentions or explanations. *Bandits, Misfits, and Superheroes: Whiteness and Its Borderlands in American Comics and Graphic Novels* provides a sober assessment of these creators and their role in perpetuating racism throughout the history of comics. Josef Benson and Doug Singsen identify how whiteness has been defined, transformed, and occasionally undermined over the course of eighty years in comics and in many genres, including westerns, horror, crime, funny animal, underground comix, autobiography, literary fiction, and historical fiction. This exciting and groundbreaking book assesses industry giants, highlights some of the most important episodes in American comic book history, and demonstrates how they relate to one another and form a larger pattern, in unexpected and surprising ways.

The War Against the Jews, 1933–1945 Lucy S. Dawidowicz 2010-11-09 A history of how anti-Semitism evolved into the Holocaust in Germany: “If any book can tell what Hitlerism was like, this is it” (Alfred Kazin). Lucy Dawidowicz's groundbreaking *The War Against the Jews* inspired waves of both acclaim and controversy upon its release in 1975. Dawidowicz argues that genocide was, to the Nazis, as central a war goal as conquering Europe, and was made possible by a combination of political, social, and technological factors. She explores the full history of Hitler's “Final Solution,” from the rise of anti-Semitism to the creation of Jewish ghettos to the brutal tactics of mass murder employed by the Nazis. Written with devastating detail, *The War Against the Jews* is the definitive and comprehensive book on one of history's darkest chapters.

Graphic Women Hillary L. Chute 2010 Some of the most acclaimed books of the twenty-first century are autobiographical comics by women. Aline Kominsky-Crumb is a pioneer of the autobiographical form, showing women's everyday lives, especially through the lens of the body. Phoebe Gloeckner places teenage sexuality at the center of her work, while Lynda Barry uses collage and the empty spaces between frames to capture the process of memory. Marjane Satrapi's *Persepolis* experiments with visual witness to frame her personal and historical narrative, and Alison Bechdel's *Fun Home* meticulously incorporates family documents by hand to re-present the author's past. These five cartoonists move the art of autobiography and graphic storytelling in new directions, particularly through the depiction of sex, gender, and lived experience. Hillary L. Chute explores their verbal and visual techniques, which have transformed autobiographical narrative and contemporary comics. Through the interplay of words and images, and the counterpoint of presence and absence, they express difficult, even traumatic stories while engaging with the workings of memory. Intertwining aesthetics and politics, these women both rewrite and redesign the parameters of acceptable discourse.

Troubled Testimonies Meenakshi Bharat 2015-12-14 Since the 9/11 attacks terror has established its permeating hold on society's psyche. Creative writing, a popular and visible cultural witness to the strain, has taken up this destabilization with remarkable regularity. Troubled Testimonies focuses on the Indian novel in English, deriving inspiration from these disturbances, to essay a unique grasp of the cultural make-up of the times and its reverberations on the sense of self and belonging to the nation. This first full-length study of terror in the subcontinental novel in English (from India) places it in the world context and analyzes the fictional coverage of the spread of terrorism across the country and its cultural fallout. The enigmatic coming together of the contemporary with the anguish of loss and betrayal unleashed by terror occasions a significant redefinition of the issues of trauma, conflict and gender, and opens a fresh window to Indian writing and the culture of the subcontinent, and a new paradigm in literary and cultural criticism termed 'post-terrorism'. Lucid and thought provoking, this book will be useful to scholars and researchers of South Asian literature, cultural studies, postcolonial studies, history, politics and sociology.
