The Making of a Marchioness & The Shuttle (2 Romance Novels) Frances Hodgson Burnett 2022-05-25 Frances Hodgson Burnett worked on these two books simultaneously: The Shuttle, a longer and more complicated book; and The Making of a Marchioness, which she wrote in a few weeks and published to good reviews. it is about the rejuvenating effects of Americans and American money on a somewhat decadent English aristocracy. The Making of a Marchioness (1901) It was originally published in two parts: the first tells the fairy tale-like story of how our heroine, Emily Fox-Seton, became the Marchioness of Walderhurst. The second, originally titled The Methods of Lady Walderhurst, is a down-to-earth portrayal of the realities of Victorian marriage, with a bit of a Victorian sensation vibe to it. The Shuttle (1907) It was begun in 1900 but frequently abandoned while its author, Frances Hodgson Burnett, wrote several other books, including, most famously, The Making of a Marchioness. The Shuttle is about American heiresses marrying English aristocrats; by extension it is about the effect of American energy and dynamism rejuvenating a somewhat decadent English aristocracy: Rosalie Vanderpoel, the daughter of an American multimillionaire marries an impoverished English baronet and goes to live in England. She all but loses contact with her family in America. Years later her younger sister Bettina, beautiful, intelligent and extremely rich, goes to England to find what has happened to her sister. She finds Rosalie shabby and dispirited, cowed by her husband's ill treatment. Bettina sets about to rectify matters... Frances Eliza Hodgson Burnett (1849 – 1924) was an English-American playwright and author. She is best known for her children's stories, in particular Little Lord Fauntleroy , A Little Princess, and The Secret Garden.

High Society Donald Spoto 2010 Drawing on his unprecedented access to Grace Kelly, bestselling biographer Donald Spoto at last offers an intimate, honest, and authoritative portrait of one of Hollywood's legendary actresses. In just seven years—from 1950 through 1956—Grace Kelly embarked on a whirlwind career that included roles in eleven movies. From the principled Amy Fowler Kane in High Noon to the thrill-seeking

Frances Stevens of *To Catch a Thief*, Grace established herself as one of Hollywood's most talented actresses and iconic beauties. Her astonishing career lasted until her retirement at age twenty-six, when she withdrew from stage and screen to marry a European monarch and became a modern, working princess and mother. Based on never-before-published or quoted interviews with Grace and those conducted over many years with her friends and colleagues—from costars James Stewart and Cary Grant to director Alfred Hitchcock—as well as many documents disclosed by her children for the first time, acclaimed biographer Donald Spoto explores the transformation of a convent schoolgirl to New York model, successful television actress, Oscar-winning movie star, and beloved royal. As the princess requested, Spoto waited twenty-five years after her death to write this biography. Now, with honesty and insight, *High Society* reveals the truth of Grace Kelly's personal life, the men she loved, the men she didn't, and what lay behind the façade of her fairy-tale life. From the Hardcover edition.

Though Dunstan village was cut off, by its misfortune, from its usual intercourse with its neighbours, in some mystic manner villages even at twenty miles' distance learned all it did and suffered, feared or hoped. It did not hope greatly, the rustic habit of mind tending towards a discouraged outlook, and cherishing the drama of impending calamity. As far as Yangford and Marling inmates of cottages and farmhouses were inclined to think it probable that Dunstan would be "swep away," and rumours of spreading death and disaster were popular. Tread, the advanced blacksmith at Stornham, having heard in his by-gone, better days of the Great Plague of London, was greatly in demand as a

narrator of illuminating anecdotes at The Clock Inn. Among the parties gathered at the large houses Mount Dunstan himself was much talked of. If he had been a popular man, he might have become a sort of hero; as he was not popular, he was merely a subject for discussion. The fever-stricken patients had been carried in carts to the Mount and given beds in the ballroom, which had been made into a temporary ward. Nurses and supplies had been sent for from London, and two energetic young doctors had taken the place of old Dr. Fenwick, who had been frightened and overworked into an attack of bronchitis which confined him to his bed. Where the money came from, which must be spent every day under such circumstances, it was difficult to say. To the simply conservative of mind, the idea of filling one's house with dirty East End hop pickers infected with typhoid seemed too radical. Surely he could have done something less extraordinary. Would everybody be expected to turn their houses into hospitals in case of village epidemics, now that he had established...

The Shuttle Frances Hodgson Burnett 2020-04-22 No man knew when the Shuttle began its slow and heavy weaving from shore to shore, that it was held and guided by the great hand of Fate. Fate alone saw the meaning of the web it wove, the might of it, and its place in the making of a world's history. Men thought but little of either web or weaving, calling them by other names and lighter ones, for the time unconscious of the strength of the thread thrown across thousands of miles of leaping, heaving, grey or blue ocean. Fate and Life planned the weaving, and it seemed mere circumstance which guided the Shuttle to and fro between two worlds divided by a gulf broader and deeper than the thousands of miles of salt, fierce sea-the gulf of a bitter quarrel deepened by hatred and the shedding of brothers' blood. Between the two worlds of East and West there was no will to draw nearer. Each held apart. Those who had rebelled against that which their souls called tyranny, having struggled madly and shed blood in tearing themselves free, turned stern backs upon their unconquered enemies, broke all cords that bound them to the past, flinging off ties of name, kinship and rank, beginning with fierce disdain a new life. Those who, being rebelled against, found the rebels too passionate in their determination and too desperate in their defence of their strongholds to be less than unconquerable, sailed back haughtily to the world which seemed so far the greater power. Plunging into new battles, they added new conquests and splendour to their land, looking back with something of contempt to the half-savage West left to build its own civilisation without other aid than the strength of its own strong right hand and strong uncultured brain. But while the two worlds held apart, the Shuttle, weaving slowly in the great hand of Fate, drew them closer and held them firm, each of them all unknowing for many a year, that what had at first been mere threads of gossamer, was forming a web whose strength in time none could compute, whose

severance could be accomplished but by tragedy and convulsion.

It was planned seriously, long thought of, discussed and re-discussed, with and among the various members of the family to which the voyager belonged. The Making of a Marchioness Frances Hodgson Burnett 2018-05-03 "The Making of a Marchioness" is a novel by Frances Hodgson Burnett. It was followed by a sequel, The Methods of Lady Walderhurst, but both have been subsequently published together, either under the original name "The Making of a Marchioness" or as "Emily Fox-Seton". Emily Fox-Seton is a young woman of good birth but no money who works as a companion and assistant for various members of the upper class. Her chief employer is Lady Maria Bayne, who is both very selfish and very funny, although she does come to care for Emily. In a "Cinderella-like" ending, Emily eventually marries a much older man, James, the Marquess of Walderhurst, thus herself becoming a marchioness. In the sequel, originally "The Methods of Lady Walderhurst", Emily has Walderhurst's child, and his former heir, Alec Osborn, attempts to regain what he sees as his birthright.

In those days when the Shuttle wove at leisure, a man did not lightly run over to London, or Paris, or Berlin, he gravely went to "Europe." The journey being likely to be made once in a lifetime, the traveller's intention was to see as much as possible, to visit as many cities cathedrals, ruins, galleries, as his time and purse would allow. People who could speak with any degree of familiarity of Hyde Park, the Champs Elysees, the Pincio, had gained a certain dignity. The ability to touch with an intimate bearing upon such localities was a *raison de plus* for being asked out to tea or to dinner. To possess photographs and relics was to be of interest, to have seen European celebrities even at a distance, to have wandered about the outside of poets' gardens and philosophers' houses, was to be entitled to respect. The period was a far cry from the time when the Shuttle, having shot to and fro, faster and faster, week by week, month by month, weaving new threads into its web each year, has woven warp and woof until they bind far shore to shore. It was in comparatively early days that the first thread we follow was woven into the web.

The Book of Margery Kempe Margery Kempe 2005-07-28 The story of the eventful and controversial life of Margery Kempe - wife, mother, businesswoman, pilgrim and visionary - is the earliest surviving autobiography in English. Here Kempe (c.1373-c.1440) recounts in vivid, unembarrassed detail the madness that followed the birth of the first of her fourteen children, the failure of her brewery business, her dramatic call to the spiritual life, her visions and uncontrollable tears, the struggle to convert her husband to a vow of chastity and her pilgrimages to Europe and the Holy Land. Margery Kempe could not read or write, and dictated her remarkable story late in life. It remains an extraordinary record of human faith and a portrait of a medieval woman of unforgettable character and courage.

My Robin Frances Hodgson Burnett 2022-06-02 This work presents a captivating short memoir about the author's friendship and experiences with an English robin she met in the Rose Garden of the English country house. Many days went by, and the curiosity between the two turned into a memorable friendship. Gradually, the robin took courage and began to claim Burnett's attention through sweet songs and dances. A special bond was created that lasted a long time until Frances had to move to America the next spring. She wrote about the moment of farewell with such deep emotions that they leave a long-lasting impact on the reader. She was deeply affected when she couldn't see the robin again. Burnett wrote the book while recovering from her disastrous second marriage and her son's death. This delightful work allowed her to circulate her personal beliefs about nature, animals, and interspecies interactions. She writes about how fascinated she was with the beautiful bird and starts by saying that she did not own the robin, but the robin owned her. Burnett personified the bird throughout the work by writing about her interactions with him and giving him human-like attributes.

The Shuttle & The Making of a Marchioness Frances Hodgson Burnett 2017-12-06
Frances Hodgson Burnett worked on two books simultaneously: *The Shuttle*, a longer and more complicated book; and *The Making of a Marchioness*, which she wrote in a few weeks and published to good reviews. It is about the rejuvenating effects of Americans and American money on a somewhat decadent English aristocracy. *The Making of a Marchioness* (1901) It was originally published in two parts: the first tells

the fairy tale-like story of how our heroine, Emily Fox-Seton, became the Marchioness of Walderhurst. The second, originally titled *The Methods of Lady Walderhurst*, is a down-to-earth portrayal of the realities of Victorian marriage, with a bit of a Victorian sensation vibe to it. *The Shuttle* (1907) It was begun in 1900 but frequently abandoned while its author, Frances Hodgson Burnett, wrote several other books, including, most famously, *The Making of a Marchioness*. *The Shuttle* is about American heiresses marrying English aristocrats; by extension it is about the effect of American energy and dynamism rejuvenating a somewhat decadent English aristocracy: Rosalie Vanderpoel, the daughter of an American multimillionaire marries an impoverished English baronet and goes to live in England. She all but loses contact with her family in America. Years later her younger sister Bettina, beautiful, intelligent and extremely rich, goes to England to find what has happened to her sister. She finds Rosalie shabby and dispirited, cowed by her husband's ill treatment. Bettina sets about to rectify matters... Frances Eliza Hodgson Burnett (1849 – 1924) was an English-American playwright and author. She is best known for her children's stories, in particular *Little Lord Fauntleroy*, *A Little Princess*, and *The Secret Garden*.

The Shuttle Frances Hodgson Burnett 2017-09-10 If you're tired of Victorian heroines who are weak-willed, simpleminded, and utterly incapable of looking out for themselves, you simply must make the acquaintance of Bettina Vanderpoel, the refreshingly shrewd, independent, and level-headed protagonist of Frances Hodgson Burnett's novel *The Shuttle*. In the early twentieth century, America's nouveau riche families began to marry off their daughters to British aristocrats, and many of these matches were doomed before they even began by intractable cultural differences. When Betty sets off across the pond to rescue her sister Rosalie from one such ill-fated match, the novel really kicks into high gear.

The Shuttle Frances Hodgson Burnett 2008-07-10 Burnett's *The Shuttle* (1906) is the story of wealthy Vanderpoel sisters. Presenting the late nineteenth century American trend of heiresses marrying into the English aristocracy, Burnett presents a daring and bold heroine, Bettina. Having initially come to rescue her elder sister from the dull upper-class life she is forced to live, Bettina meets a member of the aristocracy and falls in love herself. The title refers to the trips that were made across the continent between England and America.
