Burt Munro Neill Birss 2016-06-13 Previously unpublished interviews with Burt Munro, legendary Kiwi motorcycle rider made famous in the movie The World's Fastest Indian. Colourful tales of a life well-lived. Invercargill, at the far southern end of New Zealand. It's the late 1960s and two blokes sit in a modest shed drinking tea. The old bloke is telling stories about his life; the young bloke, a junior reporter, is typing earnestly on his Olympia portable typewriter. Dramatic tales abound – of youthful scrapes, motorcycle races and ingenious repairs, of international travel and friendships and road trips, of high speeds and accidents and meetings with dutiful policemen. Burt Munro became known around the world through the 2005 movie The World's Fastest Indian, but had long been known to motorcycle fans as a colourful character and speed record-holder. Our young journalist, Neill Birss, moved away from Invercargill and the interviews he had typed out were never published. In fact, they were lost during the move and only resurfaced under strange circumstances many decades later. Here they are in this book – the lost interviews with Burt Munro, legendary Kiwi motorcycle rider – his voice as fresh and his stories as vivid as the day he told them to the young reporter.

Pete Hill--A Legend on Two Wheels: World's Fastest Knucklehead Jackie Hill 2018-10-15 Thousands of drag race fans remember Pete Hill--the humble and very successful racer from Greenville, South Carolina. Without a big sponsor and riding a blown, fuel-burning Knucklehead, Pete Hill not only beat the other Harleys but he also beat the Kawasakis. And all with an obsolete V-Twin design that went out of production in 1948. Written by his one-person pit crew, his wife Jackie Hill, this book follows Pete's career from his first Knucklehead-powered four-wheel dragster to his ascension to motorcycle Top Fuel. Jackie tells the story like it was. The joy of winning and the hard lumps that came before the wins. The long nights on the road, the struggle to find pushrods that don't bend (make your own), and risk of learning how to mix Nitromethane. Pete Hill was and is the real deal who had no big sponsors. Pete built his own bikes and won with an outdated engine design: the Knucklehead. Jackie walks the reader through each setback and each win. She puts you right in the middle of the action. Reading Jackie's book is like going back in time with a pit pass for hundreds of drag races.
